

## ► Systems Mastery

*Learn how to develop and implement the systems your business needs.*

We all know that developing systems and “working on” our business is very important. In fact the development of robust systems will improve your time management, reduce human resource costs, increase profitability and business value. Do you have the systems in place to ensure your business runs smoothly even when you are not there?

With the right systems in place you can duplicate the outcomes again and again without having to “recreate the wheel” every time. Great businesses always have exquisite systems however knowing where and how to begin the “systems project” can be daunting. During this one-day, hands-on workshop we will show you how to systematise your business.

Together we will look at every area of your business including marketing, financial management, team management and operations, identifying the systems you should be implementing as well as the “how-to”. We will give you the systematisation plan and tools you need and show you how to apply those tools and templates. This is a must-attend workshop for those who want to increase the value of their business.

“*The five essential entrepreneurial skills for success: Concentration, Discrimination, Organisation, Innovation and Communication.*”

Michael E. Gerber

### You will learn:

- How to develop a comprehensive systematisation project plan
- How to start your “systems project” and get everyone working towards the same goal
- The key elements of really effective systems
- How to get everyone owning, using and innovating your business systems
- How to maintain momentum to ensure your systematisation project gets completed
- Tools for ensuring the business is always working on its systems and continually increasing the value of the business
- The tools and templates you can use to make the job easier

This is a hands-on, practical workshop. You will receive comprehensive workshop materials including a detailed workbook and tools that you can immediately implement into your business.
